INTERNSHIP

Intern

Jawaharlal Nehru Port Trust

🗓 Dec- 2019-Feb 2020   ⚲ Navi Mumbai,Maharashtra

- Assisted in monitoring container movement within the JNPT terminal, tracking vessel arrival and departure times, and coordinating with various stakeholders to ensure smooth cargo handling.

PROJECTS

Chemical-Inventory-Tracker

- Chemical-Inventory-Tracker is a web application designed for managing a chemical inventory. It allows users to view, sort, edit, add, move, and delete records of various chemicals. The application is built using HTML, CSS, and plain JavaScript, adhering to the requirements of the project without using any external frameworks.

`HTML and CSS` `JavaScript`

Superhero Hunter

- This project is Super Hero Hunter in which we use superheroAPI() to fetch the records and details of all the superheroes along with some additional features.
- Users are Shown some ongoing Super Hero Videos playing in the background of the website.
- Users can Enter their Problems in the form to which the most suitable Super Hero is assigned to Assist.
- Users can Check out the famous Super Hero Quotes. Also, users can Mark their Favourite Super Heroes in the 'favourites' section. It is stored persistently in the browser's local storage.
- Have added search suggestion.
